

DATABASE OF WORLD PULP & PAPER PRODUCERS

NLK Associates has developed a database which includes well over 95% of all pulp and paper mills worldwide, along with details of their location, ownership and installed capacities for each machine and grade. It also includes estimates of market pulp consumption at each paper and of any future capacity changes, speculative. This is not a trade accessible database which can be analysed in countless

board mill, as well as details both confirmed and directory, but a fully

Coverage of the Database (July 2010)

2965 mills producing 392 million tonnes of paper and board
334 mills producing 74 million tonnes of market pulp and DIP
993 mills producing 175 million tonnes of integrated pulp and DIP

All mills are entered into an ACCESS database. Menu pages enable users to focus quickly and easily on the precise grades, companies, countries or regions in which they are interested, and to view, print and download a growing range of reports.

Information Included

For each mill:

- company
- parent
- country and region
- mill notes
- paper & board capacity by grade
- integrated and market pulp capacity by grade
- estimated market pulp consumption
- investment plans

Each grade of pulp, paper or board can be analysed by mill or parent company, by country, region or world totals, at the click of the appropriate buttons. For example:

- market pulp consumption by parent company in Asia
- uncoated woodfree paper capacity by mill in the US
- market bleached softwood kraft pulp capacity in Eastern Europe
- market pulp consumption in tissues in Western Europe
- containerboard capacity in North America
- world market DIP capacity by region
- recycled paper consumption in China

- consumption of mineral fillers and coating pigments in South America
- top ten producers of each grade (table and bar chart)

Searches which are not currently available will be provided on request.

- newsletters
- on-line services
- web sites
- press releases
- conferences

Publication Schedule

The Database is completely updated monthly by e-mail.

Subscription Cost

The annual subscription to the Database is £750. This includes the latest version of the database and 11 monthly updates. Subscribers need any version of Microsoft ACCESS and no experience of using ACCESS is necessary. The Database may be copied to any number of locations within a client company at no extra cost.

Contact Details

To subscribe to the Database or to request further information, contact Richard Cockram on tel: (44) 1736 732 255, or rcockram@nlkassociates.com
